When he invented an automatic cutting machine at the end of the 19th Century, Daniel Swarovski opened the door to a world of fantasy. The magic word was crystal. A raw material, which even the most ancient cultures ascribed beneficial, valuable, indeed miraculous properties. This fascinating material transformed the world of fashion and beauty into a seductively sparkling universe. It inspired the human race and enriched both art and culture. You should not miss a visit of the Swarovski Crystal World in Wattens. It is a very interesting, subterranean, fantastic museum where you can see among other things the greatest and smallest crystal, and crystal decorated works of art from Salvador Dali and Keith Haring.
